ARHD Launches The Lawyers HelpDesk

Eldersburg, Maryland – April 22nd, 2009 – America's Remote Help Desk (ARHD), a leading US-based IT services provider, today announced that it has launched The Lawyers HelpDesk, the only 24x7 outsourced IT support provider in the Baltimore area specializing in the unique needs of law firms.

ARHD, founded in 2000 to help clients meet their business objectives through customized support solutions, established The Lawyers HelpDesk after years of experience in the legal industry successfully solving the unique IT challenges that attorneys face every day. The Lawyers HelpDesk addresses these challenges by delivering industry-leading first call resolution rates and world-class response times for nearly one third the cost of managing an in-house help desk operation.

“Our work in the legal industry has provided us with a deep understanding of the law firm culture and the challenges that attorneys face every day,” said Rich Rubinstein, President and CEO of The Lawyers HelpDesk. “Firms that wouldn't normally consider outsourcing their IT help desk function under the assumption that an outside provider couldn't possibly meet their needs now have an opportunity to exceed the level of support that they can deliver in house.”

The Lawyers HelpDesk is based on a single-tier support approach whereby the technician who answers the call follows the problem through to resolution. A unique team-oriented model ensures that attorneys speak with a familiar technician who can troubleshoot and resolve issues fast and efficiently, and without escalating. The Lawyers HelpDesk builds upon ARHD's tradition of exceptional service, flexibility and customer care to provide superior 24x7 help desk support.
